Expanded

Elaine Shuck is a nationally recognized leader in interactive videoconferencing. For over ten years her involvement has been focused on the design, application and effective use of communications technologies for education and business applications.

Ms. Shuck is the Global Education Director for primary and secondary schools for Polycom, Inc. Her responsibilities are to ensure complete customer and partner success, product and program development related to the education and training segments and to facilitate industry utilization of educational technology. During the last year she has traveled throughout North America, Europe and Asia to implement Polycom's technologically advanced portfolio of solutions successfully.

She is an accomplished expert in her field and a frequent speaker at conferences. Her leadership drove development, implementation, and management of Polycom's Collaboration Around the Planet, Content Searchable Database, Content Access Program, Content Provider Program, Special Events and the Honors Program. She works at a national and international level to deliver training to educational groups on topics such as interactive and engaging videoconferencing, distance learning course development, instructional design and delivery and videoconferencing etiquette and protocol.

Ms. Shuck has shared her knowledge of distance learning program development with many national and global institutions including New York Public Schools, Alabama State Department of Education, New Port News Public Schools, Pennsylvania Middle School Association, Rutgers University, Miami State University, South Dakota Department of Education, Canadian Association of Distance Educators, Chinese University of Hong Kong, De La Salle Universities, Manila and Ramkhamhaen University of Thailand to name just a few.

Among Ms. Shuck's speaking engagements are keynoting for the Kentucky Teaching and Learning Conference, Alabama State Department of Education, Colorado Technology in Education (TIE) Conference, Alaska Distant Education Consortium, Oklahoma State Distance

Biography

Learning Association Conference, Learning Technologies Conference, Australia, and Ministry of Education Technical Conference, New Zealand.

Prior to joining Polycom, Ms. Shuck was Director of the South Dakota Interactive Videoconferencing Smart Centers. She also served as Educational Advocate/Instructional designer and distance learning coordinator for South Dakota Public Schools. In this position she provided consulting in distance learning programs, medical education, and corporate training segments.

Ms. Shuck holds a B.S. degree from Arizona State University and a M.S. in Education with an emphasis on Curriculum, Instruction, and Technology from Nova Southeastern University. She has been an active member of numerous industry panels, boards and committees, and is an active member of the United States Distance Learning Association (USDLA), the International Society for Technology in Education (ISTE), Consortium for School Networking (COSN), and partners with the Learning Technologies User Group (LTUG).

Working with educational entities to design, foster, support and deliver learning opportunities to students that enable them to reach far beyond their current constraints continues to be Ms. Shuck's overriding passion.
