

LeHo

Vienna Teachers Training

Part of the 2016 HOPE Conference pre-programme

LeHo is an EU three-year project funded by the EACEA (Education And Culture European Agency). It focuses on the potential of using various technologies in the complex field of Home and Hospital Education (HHE), on an international basis and under a specific pedagogical framework.

As most of you already know, HOPE is part of the international network of LeHo, and these paths crossed at the Bucharest Congress of 2014, when the HOPE CM met the LeHo experts and members.

For the Vienna congress, LeHo will be facing its final and most important phase. One of the main products of LeHo is a set of Training Actions to be delivered to Hospital and Home Teachers on how to improve their use of ICT with children with a medical condition.

Considering that HOPE is the perfect representative of LeHo's stakeholders across Europe, **LeHo offers the HOPE committee members (and of course the Board) and all other people attending the Vienna conference the opportunity to attend a free session of the LeHo Training Actions at the congress' location in Vienna.**

Participation is open to anyone but is limited to 80 attendees on a first-come first-served basis.

To sign up for the Teachers Training please go to <http://www.lehoproject.eu/en/vienna-training>

The agenda follows.

Tuesday, May 10, afternoon 14:00 – 17:00

Location: room E5 – “Matteo Ricci” at **Kardinal König Haus**, Vienna - www.kardinal-koenig-haus.at

14:00 – 14:15	<p>School in the hospital and innovative technologies: an introduction to the EU funded LeHo project</p> <p>Matteo Uggeri (Fondazione Politecnico di Milano – Project Coordinator)</p>
14:15 – 15:00	<p>A selection of Innovative Practices and the instruction cards on how to use them</p> <p><i>In the LeHo main partnership countries we carried out several Training Actions to disseminate the use and the potential of these practices with real hospital teachers. The results have been analyzed and will be presented here: details on 10 ideas will be provided on how to use ICT effectively with children with a medical condition.</i></p> <p>Suzanne Lavelle (CHS) – TBC</p>
15:00 – 15:45	<p>Working in groups: how could you, as hospital teacher, integrate one or more of these innovative practices into your didactics?</p> <p><i>Participants will be divided into small groups and will discuss the practical implementation of the presented innovative practice in their own school.</i></p> <p>Managed by Michele Capurso, Suzanne Lavelle (TBC) and Stefano Menon</p>
15:45 – 16:00	<p><i>Coffee break</i></p>
16:00 – 16:45	<p>Presentation of the results by some of the groups and open discussion</p> <p>Managed by Michele Capurso, Suzanne Lavelle (TBC) and Stefano Menon</p>
16:45 – 17:00	<p>Final conclusions and follow up</p> <p><i>How to take part to the LeHo network: the national and international online communities</i></p> <p>Matteo Uggeri (FPM)</p>
